FOR the transportation of Produce, Merchandize, etc., from, and to, New York and the Western States, in connection with the

BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin, Hendrick Hudson, Sultana,
Louisiana, Globe, Wisconsin.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

For days of sailing of Steamboats from Buffalo and Chicago, see advertisement in another part of this paper.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Brier Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THIS Company offers unrivalled facilities for the Insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years this Company have issued 2600 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this state.

JAMES B. HICKEY, late of the City of Cincinnati, has permanently located in Milwaukee, for the purpose of carrying on the Horse-Shoeing Business, not to be beat by any Shop in the City; for with 21 years experience in some of the best shops in the Union, he feels confident when he asserts that he cannot be beat. Citizens of Milwaukee and vicinity, to be convinced of the truth of my assertion, and have their Horses properly attended to, so as not be maimed, interfere, &c., had better call and examine for themselves, for they will have their work done as I say, and at $1 per set for Plain Shoes; Extra Shoes $1.25; Bar shoes $1,00 per pair; Sandals $2,50 per pair; and all other work to suit the times. Don't forget to call at the OLD STAR HORSE-SHOEING SHOP, on Huron, between Milwaukee and Jefferson streets.

"Utter Blindness."

We can find no other words with which to characterize the singular course of the *News*, relative to the late letter of Archbishop Hughes. Let us look, for a single moment, at the facts in the case.

Under date of Sept. 11th, Mr. Thomas J. Semmes writes from Washington to the Archbishop. His motive is thus frankly stated by himself:

> I address you because, for some weeks past, common rumor has given out in this vicinity, and I believe elsewhere, that you, in conjunction with several other distinguished members of the Roman Catholic hierarchy, entertain and express the opinion that the Catholics throughout the Union should regard the approaching presidential election as a fit opportunity to signify their disapprobation of that portion of the constitution of the State of New Hampshire commonly called the religious test clause, which excludes the Roman Catholic citizens of that State from an equal participation of the privileges and immunities enjoyed by their Protestant brethren; and that, as a merited rebuke to the State of New Hampshire, the Catholic voters should manifest their disapprobation at the polls by voting against General Pierce, regardless of ordinary party affinities and political predilections.
>
> * * * * * * *
>
> I therefore write you, in order, if the rumor be false, to destroy its effects by contradicting it upon authority; but if true, to indicate the reasons which have brought my mind to a different conclusion, in the hope that, if I am wrong, you will do me the favor to point out my error, and if I am right, you will adopt my conclusion.

From this Mr. Semmes goes on through the space of over a column to argue the propriety of the Catholics' voting for Pierce & King. He then asks that he may make Dr. Hughes' answer public.

Now this letter, the whole of which is given in the *News*, could have had no other motive than that of drawing out from the person addressed a denial of the truth of the rumor referred to, and an expression of agreement with the writers' views.

But what was in *fact*, the answer? Here it is:

> New York, Sept. 17.
>
> Dear Sir:—
>
> I have read through, and carefully, the letter which you addressed to me, under date 11th inst., in regard to the impending election of President of the United States, and the part which you think the Catholic citizens of the Republic ought to take in it. The two candidates presented are General Scott and General Pierce. The entire American people appear to be nearly equally divided as to which of these two will make the better Chief Magistrate. This fact seems to intimate a general opinion that the country will be safe under the four years' Presidency of either.
>
> As to the Catholics, they have never been consulted as to the limited choice between these two. The probability is that, like their fellow-citizens of other denominations, they will be divided—some voting for one candidate, and some for the other. Like others, they are liable to err in their choice. But, under all the circumstances, I should prefer that, voting honestly, each according to his own judgment, they should err with the minority or (what is equally possible) with the majority of their fellow-citizens of all denominations, rather than see them guarded against such danger of erring in their choice of President by any ecclesiastical influence.
>
> I am sure that with your enlightened mind and large Catholic education, you will appreciate the reasons on which this, my humble opinion, is founded, whether or not you will agree with me in regard to its justice and expediency; in any event, however I beg leave to subscribe myself,
>
> Your sincere and devoted sevant in Xt,
> † JOHN, Archbishop of New York.
>
> Thomas J. Semmes, Esq.

Now if the *News*, or any one, can find in that letter any—the slightest—indication of what Mr. Semmes was so desirous to obtain, they must be sharp indeed. Dr. Hughes' answer is an excellent one, and we are much obliged to the *News* for calling the attention of our people to it.

Calling Names.

The following appears in the *Seebote* of Monday evening, in reference to the epithet used by the *Wisconsin* towards it:

> The "Wisconsin" of Saturday evening sneers at the "Romanist" organ, as it calls the "See-Bote," for having "come out for Scott."—We cannot afford time for analysis of this lying, uncourteous squib, but briefly call attention to it as a proof how soon democratic journals change their "protection" into snarls, if we dare independently to tell truth against themselves.

With regard to what we said in relation to the sudden change of tone on the part of the *Wisconsin*, that paper affects a remarkable conscientiousness as to the use of terms. We do not care to enter into a theological argument on the matter, but it seemed, and still seems a remarkable instance of change of tune, that of our good-natured cotemporary. In the numbers of the *Wisconsin* of the 17th, 20th, and 29th, the word "Catholic" is used in its ordinary acceptation without any sort of scruple; but, all at once, within a few days, our very conscientious brother has found out quite a different form of speech.

A Melancholy Fizzle.—There was appointed, and announced in the papers and by handbills for weeks before-hand, a "Mass Meeting of the democracy of Indiana" to come off at Vincennes, on the 9th ult. When the time came, Hon. John Petit, who was to be the "great gun" of the occasion, looked around on a little gathering of 25 or 30 of the faithful, and spoke as follows:

> Fellow citizens: My appointment in Vincennes has been proclaimed far and wide, and, in viewing this audience, I do not feel at liberty to waste time and breath in addressing this meagre assemblage this evening. If the people do not feel any more interest in the success and prosperity of the principles of the great Democratic party, and the election of Pierce and King, I am not going to trouble myself in exerting my powers in promoting the cause in this community.

After which the meeting adjourned with three cheers for Scott and Graham!

☞ That part of the European and North American railroad, lying in the province of New Brunswick, has been contracted for, to be put in running order, week before last, at 6,500 pounds sterling, or $32,500 per mile. The Nova Scotia portion will be under contract soon.

City Matters.

Amusements—Exhibitions.

The opening of the State Fair attracts crowds of Exhibitors to our city and there is no lack of amusements for sight-seers.

This evening the Panorama and Melodeon Troupe offer their combined attractions at Gardiner's Hall.

The interesting and beautiful process of Glass-blowing will be exhibited, every day and evening during the week, at 212 East Water Street.

A great natural curiosity, in the shape of a wild mare, captured in South America, will be exhibited in the evening at 196 East Water Street, and on the Fair Grounds during the day.

State Fair—Refreshment Stands.—We hope, among all the numerous calls upon the liberality of the visitors to the city, during the State Fair, that the Ladies' refreshment table will not be forgotten. It is located in the grove, near the Military encampment, and will be furnished with all the good things that the ladies only know how to prepare.

Theatre.—In consequence of indisposition, Miss Dean was not able to perform last evening, and the play of "the Stranger," with Mrs. Rice as "Mrs. Haller" was substituted for "Evadne." Mrs. Rice played the part in her usual excellent style, and richly earned the applause she received. Another attractive bill is offered this evening: the "Lady of Lyons" and "Black Eyed Susan."

Arrivals of Stock &c.—The steamers *Pacific* and *Golden Gate*, which arrived from Chicago yesterday afternoon, brought large loads of passengers and a number of fine Sheep, Cattle, lots of Poultry, Machines of various sorts &c., all designed for exhibition at the State Fair.

Still Another Giant!—Angus McKaskill, the Scotch Giant, holds a levee at the Fair Gronds through the days of the Show, and in the evenings at Market Hall. He will be glad to see "his friends and the public generally."

State Fair Ball.—The Managing Committee, we understand, have decided upon holding high festival in the large tent of the Society on Friday evening, in the shape of a ball. The floral tent near by is to be used as a dressing room.

Scott & Jackson:—Chapman has laid on our table the "Life of Scott and Jackson," by Rev. J. T. Headley. We have not had time to examine it, but we notice many praises of it in the Eastern papers. We shall notice the work soon.

Returning from the Wars.—Our Milwaukee "Eleven" will return from Chicago, by the *Arctic*, this afternoon. We hope that their friends will be at the Pier to welcome them home, and give Johnston, the winner of the "Single Wicket" Match, three hearty cheers.

Giants in these days too!—Among the other remarkable attractions of the Fair week is the fair damsel who figures under the name of the "Giant Girl," weighing only 512 pounds—Think of that!

☞ Among numerous other arrivals last evening, we were happy to notice those of Governor Farwell, Secretary Robinson, and our State Superintendent, Dr. Ladd. They have rooms at the U. S. Hotel.

Omnibus Line.—An omnibus will start, every half hour, for the Fair Grounds, from the foot of Wisconsin Street. See advertisement.

Life of Scott in Norwegian.—We have a supply of this capital Campaign document, to which we invite the attention of the friends of the cause.

The Late Election.

We have the following additional returns of the election. It will be seen that Grant Co. probably gives a fair majority for the Independent ticket throughout:

Grant County.

Waterloo—19 straight votes for the Independent Ticket.
Patch Grove—Whiton 29, Larrabee 4, Strong 25, Knowlton 32, Smith 9, Crawford 2.
Highland—Whiton 16, Larrabee 10, Strong 12, Knowlton 17, Crawford 11, Smith 11.
Paris—39 for Independent Ticket.
Platteville—Whiton 154, Larrabee 32, Strong 117, Knowlton 112, Crawford 63, Smith 47.
Lancaster—Whiton 51, Larrabee 39, Strong 41, Knowlton 25, Crawford 61, Smith 44.
Clifton—Independent Ticket 20 maj.
Lima—About even.
Harrison—1 maj. for Democratic Ticket.

We are indebted to Hotchkiss' line for the following official returns from Jefferson Co:

Whiton	478	Larrabee	540
Strong	468	Smith	525
Knowlton	168	Crawford	544

We make the footings now stand as follows:

Whiton	8775	Larrabee	6199
Strong	7325	Smith	7332
Knowlton	6530	Crawford	7104

The Cricket Match at Chicago.

The match between the Chicago and Milwaukee Cricket Clubs came off in the former city, on Monday last. The result was announced in yesterday's paper. The match was vigorously contested and occupied the entire day. A large crowd of interested spectators watched the progress of the game, and applauded the players at every good hit, or clever catch. We annex a report of the score from yesterday's Chicago *Tribune*, reserving a further account of the day's proceedings till our next. The Return game is to be played in this city on *Monday next* and will undoubtedly be worthy the attention of all lovers of Cricket in our city and vicinity.

Cricket Match.

MILWAUKEE VERSUS CHICAGO.

Chicago Triumphant.

The great match took place yesterday—as fine a day as could be asked for the purpose. We give below the entire doings of each member upon the field as kept by Mr. C. R. Scales, of this city, one of the scorers of the day.

We have only to add, that everything connected with the match went off in the best style and in the most unbroken harmony and good feeling—and at the close, which was not till after sunset, no voices were louder or more cordial in the rounds of cheers given to the victors than those of our Milwaukee friends;

Milwaukee Club.

Nominations for the Legislature.—Wm. Costigan is the "democratic nominee for Assembly in the north eastern district of Waukesha Co.

O. Coleman is the candidate of the same party in the northern assembly district of Columbia Co.

Col. Benjamin Allen for State Senator in the 19th district.

E. G. Wheeler for Assembly in Sauk Co.

☞ The more sensible of the democratic press are becoming aware that the system of abuse which they have adopted towards Gen. Scott is calculated to make him more friends than enemies.

The Baraboo *Standard* now says of Gen. Scott:

> He is undoubtedly, one of the first military heroes and disciplinarians of the age, ranking with the Conqueror at Waterloo. He is also an honorable and upright man, scrupulously exact in all the relations of life.

Mass Meeting at Oconomowoc.

By the following record of the proceedings of the meeting at Oconomowoc on Saturday, it will be seen that the friends of Scott & Graham gathered in strong force, and enjoyed a pleasant and profitable time. We are certain that the right feeling is being awakened in Waukesha Co. and expect the best result:—

Oconomowoc, Oct. 2d, 1852.

Editors Sentinel—

Gents:—Pursuant to notice heretofore given, a large and enthusiastic meeting of the friends of Scott and Graham was held in this place to-day. At an early hour, large groups were seen collecting from all quarters, and at half past twelve, delegations of Summit, Delafield, Merton, Ottowa, with a "smart sprinkling" of friends from Waukesha and other parts of the county, made their entrance into the village with drums beating and colors flying, and were met and welcomed by the Committee of Arrangements. About 2 o'clock the meeting was organized by the appointment of the following officers:—

President, Alfred L. Castleman, Delafield.
Vice Presidents:—
Capt. Jno Gassman, } Oconomowoc.
Budd Fairmans, }
D. Worthington, } Summit.
James Clark, }
John Davis, } Delafield.
Fred'k Hopkins, }
Henry Shears, } Merton.
Dr. N. J. Hopkins, }
Talbot C. Dousman, Ottowa.
Col. J. Davenport, Genesee.
E. Evans, Jr., Waukesha.
Richard Cooling, Lisbon.
J. F. Bancroft, Menomonee.
—— Hinckley, Eagle.
Judge Martin Field, Mukwonago.
Secretaries:—J. M. Lewis, Oconomowoc.
Erskine Stansbury, Summit.

The assemblage was addressed from the stand by the President of the Day, who, after returning thanks for the honor, &c., introduced to the meeting the following gentlemen, who successively addressed it:—Francis Randall, Esq., Milwaukee, Mr. Chase, Racine, Mr. Orton, Milwaukee, who were severally loudly and enthusiastically cheered, during the progress of their remarks.

The meeting broke up about 5 o'clock, P. M., with three cheers for Scott & Graham, and with a determination not to cease from our efforts till the Old Hero is triumphantly elected.

The meeting was large, and astonished friends and foes. The numbers in attendance is variously estimated from 4 to 600. Everything passed off pleasantly, and the very best spirit prevailed throughout. Those who present at the wonderful mass meeting in Milwaukee to hear the little Giant, state that our meeting was much the larger of the two. Pretty well for a little country village.

Yours, &c.,
J. M. Lewis, } *Secretaries.*

Things in Sauk County.

Baraboo, Wisconsin, }
Sept. 28th, 1852. }

Messrs. Editors:—The Scott Club were in fine spirits at their meeting last evening, and are bound to work from now until the close of the Polls on the 2nd of November. Notwithstanding the late hour of the adjournment, they ordered a Cannon, which was made last night, and is now belching forth Whig thunder, which makes the Locos look blue. To-day is the Whig Mass Meeting for Sauk County. Mr. Orton, of Madison, is our Speaker—we will have a large turn out, of which you will be duly advised. Last Friday was the Loco Foco Mass Meeting, (a standing notice of which has been published in the *Standard*, for the last four or five weeks.) which proved to be a perfect failure—neither people or Speakers appearing. There is not much doubt but what Sauk will roll up a handsome majority for old Chippewa, notwithstanding the opposition claim 150 majority. The opposition made their nominations for County Officers on Saturday last. E. G. Wheeler, of Reedsburg, received the nomination for Assembly, and D. W. Wheeler, of New Buffalo, for Sheriff, &c. Altogether, the nominations give great dissatisfaction. The Whigs make their nominations tomorrow, the 29th, and we think we can carry the County this Fall.

Correspondence of the Daily Sentinel.
Washington Co. Loco Foco Convention.

Ozaukee, Oct. 2d, 1852.

Messrs. Editors:—Yesterday the "Pierce Democracy" held at the village of Newburgh, what they called a county convention. In the *call*, they denominated the thing yet to be, "*convention*," but now that it *has been*, most of those who were there, denominated it, the county *auction*; This last name is the proper one. Many aspirants to places of spoils were sold, and so unexpectedly, and by such persons, that they would have looked truly pitiful, had they not looked so ludicrous.—Think of one aspirant in the convention, (composed of sixty delegates,) counting with certainty on forty-five votes, and obtaining but twenty. To see there his lank cheek, his long and loose lower lip, was pitiful—But to behold higher up, and see such prominent eyes, looking with a glare of amazement, wondering how it was done, was ludicrous in the extreme.

But that little knot of politicians in Port Washington, known as the "Clique," suffered the worst—one of their number, a very "humble Uriah Heap," sold all the rest. They were all aspirants for office, and all except the said *Uriah*, had qualifications, personal friends, and influence. It was a matter of grace from the rest of the "*clique*" that he was permitted to consort with them at all—so they considered it, and he considered himself very "*umble*." He got nominated for the office to which he aspired, and all the rest got—defeated. This is a great country, and the "Pierce Democracy" are a great people. I had forgot to say that the *Auction* very properly endorsed the resolutions of the Baltimore Slaughter, and superadded, "That the Baltimore platform was one upon which every democrat ought to stand." I wonder how our German citizens who are Tariff men, and Harbor and River Improvement men, will like that!

Yours Truly, G. W.

An Incident about Gen. Scott and the Mexican War.—We find the following interesting anecdote in the Buffalo *Express*:

> Mr. Polk had conferred the office of Colonel upon some small-bee Democratic politician, as a reward for party services. The new-fledged Col. with his cap and feathers, reported himself to the General, who politely invited him to dine with a number of distinguished gentlemen. The Colonel was as vain as General Pillow and wall nigh as silly. During the progress of the dinner he flippantly remarked to the General—"General, they say the churches in Mexico, are full of Gold and Silver images—we will have fine times when we get among them!" The General was shocked and disgusted at the sacreligious suggestion, but out of pity for its author assumed not to have heard him, and continued to converse on other topics. The Colonel presently repeated to remark, when the General, drawing himself up to his full height and looking the thing directly in the face, said, slowly and firmly, "Col., if any soldier or officer of my command, while in Mexico, shall enter any church except to say his prayers, or for other equally justifiable purpose he shall be punished: and if any shall presume to touch the sacred emblems belonging to God's altar, as you propose, *he shall be hung*!" There was silence at the table for a little space; the Colonel's face was redder than his feather, and just at the moment, he would have been happier in his citizen's dress, talking Democratic politics in a bar-room at some four corners.
>
> Humanity, justice, virtue and civilization owe Gen. Scott a debt of gratitude for the firm hand with which he restrained the evil purposes of men during the eventful campaign in Mexico—and especially, religious men will bless him, for having repressed at all hazards, the too common impulse manifested by armies, to plunder the sacred treasures of the church.

Jack Dowing's Last.—That shrewd individual who writes under the name of "Jack Downing" says, in his last letter to the National *Intelligencer*:

> "I'm afraid there's a Whig drift going over the country that'l swamp us. Sailors tell about the big tenth wave that rolls up and carries every thing afore it, and I'm thinking it seems to be a good deal so in politics. There was a big tenth wave in 1840, and you remember what work it made. It looks a good deal as if there is another big tenth wave rolling up now, to swamp the Democracy and upset Congress."

Convention of Spirit Rappers at Worcester.

Spiritual Conversations—Communication from the Spirit of John Hancock, Endorsed by the Spirits of Washington, Franklin and others, Hailstone Cross, Etc.

SECOND DAY'S PROCEEDINGS.

Worcester, Sept. 30, 1852.

The Convention met to day in the City Hall. The Rev. Adin Ballou took the chair, and called the meeting to order at about eleven o'clock.

Andrew Jackson Davis was introduced to the Convention, and read what he said was a true and faithful record of visions he had seen, and communications he had received from an inhabitant of the spirit spheres. A description was given of a congress of spirits which Mr. Davis saw with his spiritual eyes. His angel showed him a cross of hailstones suspended in the air; and, also great fields of ponderous electric elements and meteoric stones, and told him that the laws of gravitation were not yet well understood. The spirit showed him these to prove that spiritual bodies, which were matter spiritualized, could walk, move and have their being in the superior spheres, without any violation of natural laws. The spirit told him to go and call men to repentance and life, for the kingdom of heaven was at hand.

Mr. Hewitt read a communication written by the spirit of John Hancock, which was approved of by George Washington, Patrick Henry, Roger Sherman and Benjamin Franklin. It said that John M. Spear was yet to be the wonder of the world. He would go forth to heal the sick, and do many marvellous things. John Hancock, Patrick Henry, &c., seem to have forgotten their grammar, and acquired a style of preaching peculiar to Shakers, Ranters, Jerkers, and Barkers. It was a poor production.

A lady on the platform began to shake, and cry out—"Oh! that I could shake all things that are to be shaken! Oh! that I could tell my experience since I was twelve years old! Oh! repent, my friends—draw near, for the day is breaking!"

A Scotchman, named Davidson, looking like the wizard in Campbell's poem of "Lochiel's Warning," rose, and said the spirit of John Hancock had just told him that certain words had been used by the medium, in the communication read by Mr. Hewitt, which he did not approve of.

A lady read a communication from a spirit in Ohio. It called on the spiritualists to be full of love. It was a regular Ranter's splurge of sermonizing.

The body, at this point, adjourned till two o'clock.

Afternoon Session.

The convention re-assembled at two o'clock.

A Shaker said the Shakers were Spiritualists. He said marriage was the root of all the world's sin, folly and suffering. It was the basis of all selfishness; until marriage and family were abolished the world could not be regenerated.

A red faced, fat, brawny Irish woman from High Rock, rose with her eyes shut, and her head hanging down, and spoke a lot of bad English in a harsh voice.

At the same time, a young man behind her whirled his hands about, rolled his head, clapped his hands, and then seizing a man's hat, began to write with a pencil and paper on the crown thereof.

About four yards from these, two lunatics, a tall idiot, with a pale, cadaverous face and black beard got upon his feet and whirled round like a top, clapping his hands shaking and muttering. At last he made a dead point with one of his hands at the Irish medium, who was grunting, blowing and rolling her head like a person under the influence of opium.

Mr. Bingham objected to these demonstrations.

A member much excited, demanded that the spirits should be allowed to talk.

A big fat man, of the John Rogers' breed, sat on the platform, cried out, "Obey God rather than man. Let the spirits speak. Amen, Amen."

This scene exceeded all that could be imagined of Bedlamism and folly. The chairman repudiated all such fanaticism and folly as this. If these were spiritual communications, he preferred the communications we could have from the spirits of living men. He would not allow his reason to be imposed upon by such irrational demonstrations.

The chairman is a man of talent apparently, and has candor and reason. How he got into such a squad is beyond comprehension.

The convention adjourned for three months, to meet at some other locality in this State.

Testimony of an Independent Paper.—The following, which we copy from the Baltimore Clipper, an able and influential paper that takes no part in politics, we commend to the attention of our readers, Democrats as well as Whigs. It is a noble tribute to the glorious old patriot, who, notwithstanding a life of devotion to his country's glory and welfare, is now cruelly maligned, and slandered, and hunted down by the blood-hounds of party, simply because *the people* have indicated their intention to place him in the Presidential chair. Again we say, read the following:—

> General Scott.—There was a considerable crowd at the Calvert Station yesterday morning, to witness the departure of General Scott for the west, on the business of government. On appearing on the platform of the car, he was greeted with three cheers, and we had the pleasure of viewing his noble form and manly countenance for the first time in our lives, though under his command for a short period in 1814, in this city.
>
> As we never expect to receive either a loaf or a fish from him, in case of his election to the Presidency, we have no personal motive to induce us to praise him—but we must say, that, were we disposed to be his enemy, the foul charges and fabrications which have been published against him, would warm our hearts towards him. As a General we doubt whether his equal lives; and as an honest, humane, and honorable man, he can stand a comparison with any man.
>
> The testimony of those who have served under him, proves, that, in performing the stern duties of the commanding General, he never lost the humane feelings of the man. We have heard narratives of his gentleness, tenderness and humanity towards the sick and wounded, which brought tears into the eyes of the speaker—and disconnected from all political considerations, we could not repress our love for the man.
>
> Some of the most admirable traits in the character of Napoleon, were his kindness to his men—but in this particular, he has been surpassed by General Scott—who visited, soothed and relieved the sick, even at the risk of his own life. Such humanity on the part of a successful General—such regard for the welfare of the common soldier—cannot fail to exalt him in public estimation far above the reach of falsifiers and slanderers, who would tarnish his glory as a military chieftain, and his reputation as a private gentleman. Malignity may seek to stigmatize Gen. Scott with cowardice, fraud, &c., but the American people, whether they elect him to the Presidency or not, will never cease to feel grateful for the great services which he has rendered to the country.

A Reproof.—The Potosi, Grant Co, *Signal*, does not seem to be pleased with the result of the Judicial election in that town. In recording that result it takes occasion to administer the following reproof to its party:

> We are, indeed, sorry to see such a laxity on the part of leading Democrats, and that just on the eve of a Presidential election when all should be active. As we had predicted, Samuel Crawford has received quite a majority here, and so, also, has Judge Larabee—A. D. Smith not coming quite up to the ticket.
>
> The contest between Cothren and Jackson for Judge of this District, is closer than we dared to predict. We are fully convinced that had democrats done their duty, and acted independent of the jeers of the Whigs, Cothren would have received forty or fifty majority.

Geo. Witherell.—A correspondent of the Buffalo *Express*, writing from Northern Michigan, gives the following explanation of the troublesome question which Mr. Witherell put to Gen. Cass at Cleveland:

> I almost forgot to mention that we had on board "that same" staunch old Scott Democrat, George Witherell, whom the loco focos hustled out of the Cass & Douglass meeting at Cleveland, for asking a civil question. He explained his motive. He had bet ten dollars with some verdant Pierce man that Pierce never voted for a Harbor and River appropriation, and agreed to leave the matter to Gen. Cass when he arrived. During Gen. Cass' speech, Mr. Witherell, with an eye upon his ten dollars, had the audacity to ask Gen. Cass the plain question, which he promptly answered in the negative, and Mr. Witherell pocketed the stake. Mr. W., is a stern Democrat, and has been all his life time, but goes it strong for Scott. He is a man of character and influence, has been a government contractor in building light houses for several years, and was now on his way to repair the light on White Fish Point.

United States Mint.—The Journal of Commerce publishes a comple table of the coinage and deposits at the Mint and all the branches, from the 1st of January, down to the 1st Sept. A statement of the deposits of gold at all the Mints from Jan. 1 to Aug. 31, this year, compared with the same period last year, exhibits the following results:

	1851.	1852.
United States Gold	33,854,179	34,577,281
Other Gold	647,202	964,970
Total	34,562,357	35,542,251

It will be seen that there has been an increase in the deposits of gold for the eight months, of a little over $1,000,000.

The total coinage at all the Mints from Jan. 1 to Aug. 31, this year, was as follows: Gold, $36,494,148; silver, $527,043; copper, $39,122 61. Total $37,060,313 61.

WORTHY OF ALL CONFIDENCE.

Dr. Storm's Celebrated Scotch Cough Candy.—No medicine ever invented has gained more popularity than this, nor is there any more deserving of it. There are so few compounds worthy the high merit claimed for them, that when one which is really destined to benefit the afflicted is put forth, we are slow to believe our most intimate friends, when they praise it. But Storm's Scotch Cough Candy is sold at a price so low, it must be evident to all that if it did not sustain a good reputation, enough would not be sold to pay for advertising. Almost every person that uses this article according to direction will feel justified in recommending it to others, it needs but a small outlay of money and time to satisfy the most sceptical that it is worthy of all confidence as a remedy in diseases of the Chest and Lungs.

Price, One Dime per Roll; 3 Rolls for 25 Cents; or $1 per Doz.

A handsome engraving of the Scottish Coat of Arms, and the written signature of Hamilton Wade, (proprietor,) is on the outside wrapper of each roll or package.

We recommend this medicine knowing from experience that it is much superior to the generality of patent medicines. We would say to our readers, purchase none unless prepared by Dr. C. OFFICE OF THE
Association for the Exhibition of the Industry of all Nations.
NEW YORK, JULY 12th, 1852.

THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the City of New York, on the 2d day of May, 1853. The Municipal Authorities have granted to them the use of Reservoir Square, and they are proceeding to erect thereon a building worthy of he purpose to which it is to be devoted. The Association desire to make the Exhibition, in fact as well as in name, a Representation from other countries as well as their own, of Raw Materials and Produce, Manufactures, Machinery and Fine Arts. To this end they have made arrangements with Charles Buschek, Esquire, late Commissioner of the Austrian Empire at the Industrial Exhibition of London, whose skill, experience and high character offer the most satisfactory security to Contributors from abroad. Mr. Buschek is the authorized Agent of this Association, for all countries other than the Continent of America, and as such has received his instructions. All communications from Contributors abroad must be addressed to him at "The Office of the Exhibition of the Industry of all Nations in New York," No. 6 Charing Cross, London. He will state to them the nature of the powers given and authority conferred, and will also explain the great inducements offered by this Enterprise to European Exhibitors. This association will correspond with all persons in the United States, the Canadas and British Provinces, the West Indies, and this Continent generally, who may desire to contribute to this Exhibition. All such communications must be addressed to "The Secretary of the Association for the Exhibition of the Industry of all Nations New York." The Association is now ready to receive applications, and it is desired that they be sent in immediately. Due notice will be given, hereafter, when the Building will be ready for the reception of articles. Application for the admission of Objects to the Exhibition must represent intelligibly their nature and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or Counter, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and applications for the admission of Machinery, to be so exhibited, in addition to the general description and the requisition for space, must set forth the amount of Motive Power required. The Association deem it proper to announce that Paintings in Frames will be exhibited. As, notwithstanding the magnitude of the proposed Building, there must, necessarily, be a limitation of space, the Association reserves the right to modify or reject applications; but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any care one season, during which objects shall, severally, form part of the Exhibition. Exhibiters are requested to designate an Agent, to whom their contributions shall be delivered when withdrawn from the Exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the direction of Capable and Eminent Persons—With this statement the Directors solicit the co-operation of the Productive Intellect and Industry of their own and other countries.

THE LOON.—I saw in a Geneva paper last year, some remarks respecting the Loon, or great Northern Diver, being taken by hooks 80 or 90 feet under the surface of the water of Seneca Lake, as mentioned by Miss Cooper, in her "Rural Hours," and expressing a disbelief in the correctness of the statement, but there was no assertion from any knowledge of the editor.

I lately met Mr. Wm. Ormond, a boatman living at Geneva, on the northern shore of Seneca Lake, by the plank road, who says he has lived here fifteen years, and has himself taken the Loon from hooks 80 feet under water, where they had been sunk for Lake trout.

I consider this evidence as fully establishing the accuracy of Miss Cooper's statement, which is still doubted by some persons.—*Geneva Gazette.*

SCOTT'S OLD SOLDIER AT KALAMAZOO.—The following incident is related by the Kalamazoo Telegraph, as having occurred at the meeting which Mr. Chandler and George Dawson addressed in that village last week.

At the early gathering of the meeting around the speaker's stand, among the crowd we noticed an Irishman advanced in years, who had obtained a seat at one end of the platform. Our attention had been drawn more particularly towards him from the fact of a partial acquaintance arising from a circumstance not necessary to repeat here, which had occurred a day or two previous. He appeared to be deeply interested in the remarks of the Speaker, and more especially as any allusion was made to Gen. Scott. While Mr. C. was speaking of the noble conduct of Gen. Scott in saving the lives of the twenty-three Irish prisoners, he was suddenly interrupted by the person alluded to, with "*I am one of those same men, and I propose three cheers for the gallant Hero who saved us.*" Three cheers were accordingly given for Old Chippewa, and three more for the gallant old fellow who had fought under him. Mr. Chandler had living evidence of his statement. The Irishman has proof of what he represents himself to be.—*Detroit Advertiser.*

☞ If we take the facts averred in the speeches of Gen. Pillow and Judge Douglass, Gen. Pierce must have passed an awful night after falling from his horse at Contreras. Gen. Pillow says he "lay all night among the sharp-pointed rocks of lava." Judge Douglass says that these rocks of lava were "red-hot." The Concord (N. H.) *Patriot* says that Gen. Pierce is "a kind-hearted, peaceable man who never got into a broil in his life," but if he didn't get into a broil upon this occasion, there's no truth in the "little giant."—*Louisville Journal.*

THE LARGEST MERCHANT SHIP IN THE WORLD.—Mr. McKay, of East Boston, is now at work upon a clipper ship which will surpass in size and sharpness, every merchant ship now afloat, or known to be in the course of construction. She will be 300 feet long have 50 feet breadth of beam, 28 feet depth of hold, with three decks, and will register over 3000 tons. She will be diagonally braced with iron, and built in every particular equal in strength to the best ocean steamers. Her model in point of beauty is the wonder and admiration of all who have seen it. She will have four masts with Forbes' rig. Mr. McKay builds her on his own account and will sail her too if he does not sell her.—*Boston Atlas.*

GEN. SCOTT AS A WARRIOR.—Gen. Scott is a man who has performed the most brilliant campaign on recent military record, a man who has warred against the enemy, warred against the climate, warred against a thousand unpropitious circumstances, and has carried the flag of his country to the capital of the enemy, honorably, proudly, humanely, to his own permanent honor, and the great military credit of his country.—*Daniel Webster.*

HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS EXCELS ALL OTHERS now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught: a small boy can attend the horse, and the running back of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work: seven or eight bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 400 lbs., measuring two feet square and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn, or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged instantly, and the follower gradually recedes as the Hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The travel for a horse, in running up a bale, is fifty feet, while in a screw press, the travel is one mile and a half, in running the screw up and down. We have one new Press now in operation at Waukesha, Wis., and two others in process of construction.

So great a failure of the hay crop as has occurred in all of the Eastern and Atlantic States, the present season, cannot fail to ensure a most profitable business to any persons in Wisconsin or Illinois, who may take hold of this business with energy. The hay may be shipped during the present fall, and three months of the spring navigation, before another hay crop is raised.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway, Hay and Cotton Press, is a machine combining great power, convenience of operation, and constructed on true philosophical principles, and is a great desideratum to the river counties, and all places not contiguous to market, and also to cotton and hop growers: and the Committee think they do not exaggerate when they say it is, in their opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $5."

The Press, with the right to use it, can be purchased at less than half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

WALTER P. FLANDERS.

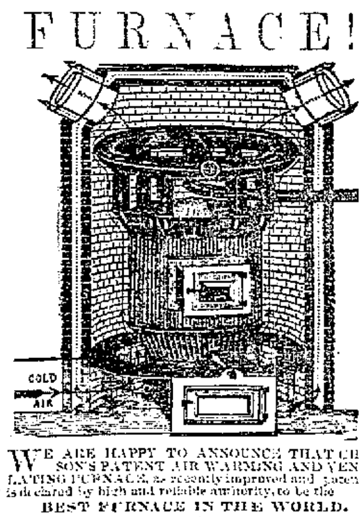
CHILSON'S PATENT

World's Fair Prize Medal

FURNACE!



WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented is declared by high and reliable authority, to be the

BEST FURNACE IN THE WORLD.

Not only is this Furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating DWELLINGS, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in this country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best.—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first of all used the manufacture of the common frail hot air furnaces seven years since, under the settled conviction, that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings; besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air; and the annoyance and expense of repairs, new pots, &c. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus, for thoroughly warming and ventilating buildings, has been entirely successful.—They possess the following advantages: purity of air, powerful heaters, economical plan for burning anthracite, bituminous coals or wood, all equally well—fires easily cleared out—great durability of furnace, not liable to repairs for a life time; perfect safety against setting buildings on fire in which they are located; may be set in low cellars.—Sizes for all classes of buildings. Also 4 sizes of new and superior PORTABLE FURNACES,—Dr. Clark's improved Boston School Stove.

Registers of all descriptions; Hot-air Grates, Room Ventilators, &c.

Emerson's celebrated Ventilators for Roofs of Buildings and smokey chimneys, &c. Cooking Ranges, with or without Bath Boilers, and Hot-air Fixtures. All sizes and styles of these beautiful

MIRROR MARBLE MANTLES,

PARLOR AND CHAMBER FRAME GRATES,

of rich European and American styles. Also a splendid article of Liverpool Soft Coal Grates, for Parlors, &c.

SAUGATUCK IRON WORKS,

WESTPORT, CONN.

OFFICE No. 5, NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for railroad companies, to-wit:—Car wheels and axles, boxes and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets, frogs, head and heel blocks, chairs, and all castings connected with Railroad superstructure.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels. We were then informed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and advised us to attempt its improvement.—With every desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the iron of which they were made was sufficiently strong and properly chilled. Since then we have left no means unemployed that we could control to procure a new and stronger combination of iron than heretofore to be had and feel confident that we have succeeded, with which we are now manufacturing double and single plate and spoke wheels fully guaranteed as regards strength and perfect chill. Within sixty days we will be able to supply limited orders with Whistler's Express and "Whistler's Single Plate" wheels. From the material used in and the expense of fitting up these patterns will cost something more than ordinary wheels, but it is confidently predicted by those who see patterns are most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whistler, Jr., Esq. (whose experience in all matters connected with railroads is sufficiently known) and intended to obviate the influence of contraction and expansion to an extent that will render them perfectly safe in all weather, at the highest rate of speed.

AXLES.—We will use none but the best faggoted, which are superior to any other.

SWITCH STANDS, LEVERS AND TARGETS.—We have adopted a stand that recommends itself for simplicity of construction, and the best guarded of any we know, invented by Van Blarcomb, Superintendent of Machine Shops of the Housatonic & Naugatuck Railroads, but will make of any pattern desired.

SCREW CUTTERS.—The invention of Mr. Van Blarcomb, a useful, cheap and successful machine.

BOXES AND PEDESTALS, of any size or pattern to order.

DRILLING MACHINES, of a very simple and very substantial character.

WHEEL PRESSES.—Made to order.

LOCOMOTIVE DRIVERS AND CYLINDERS.—Made to order.

FROGS, CHAIRS, HEAD & HEEL BLOCKS, And all work connected with superstructure, made by contract.

Predicating our success on the facilities we possess of procuring the latest improvements in machinery, and the uniform excellence of our work in material and finish, we solicit orders.

Spherical Disinfecting Fluid,

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate

selected from a number, can be seen at the store of the agents:

HOE'S CAST STEEL, CIRCULAR AND LONG SAWS,

THE SUBSCRIBERS MANUFACTURE FROM THE best cast steel, Circular Saws, from two inches to five feet in diameter. These saws are carefully hardened and tempered, and are ground and finished by machinery designed expressly for that purpose, and are therefore much superior in truth and uniformity of surface to those ground in the usual manner. They require less set, less power to drive them, and are not so liable to become heated and produce a waste in timber.

They also manufacture, Cast Steel MILL, PITT and CROSS-CUT SAWS and BILLET WEBS, of superior quality, all of which they have for sale at their warerooms, Nos 29 and 31 Gold street, or they may be obtained of the principal hardware merchants in the United States.

"Your committee are of unanimous opinion, that in the apparatus invented by R. M. PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of PEPSIN, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

PEPSIN is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analagous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every physician and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for diseases of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ **Observe this.**—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copywright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

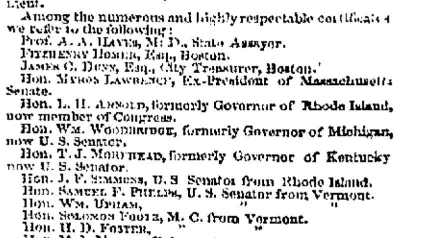
AYER'S



CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

MANY years of trial, instead of impairing the public confidence of this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

GENTLEMEN'S FURNISHING GOODS.

They are confident in view of their very superior and unsurpassed facilities for the purchase of goods in the Eastern markets from cash auctions, importers and manufacturers, half cases from first hands, one of the firm residing and superintending the business of their concern in Philadelphia, that they are not only able, and do buy their goods from 20 to 25 per cent cheaper than most houses in the city who buy on credit, and of jobbers, but they are able and are determined to sell that much lower. They deem it superfluous to attempt, as it is impossible to enumerate the articles that comprise their stock, which in extent is unrivalled by any similar establishment west of the Atlantic cities.

To their friends and customers, and those who know them, it is needless to say anything, but to strangers who are in want of articles comprising their stock, they will say, call on us and let us show you the great inducements we are able to offer; we will give you polite and respectful attention, with better bargains than you are able to get elsewhere. HAWKINS'
STAVE DRESSING
MACHINE.
PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey
BARRELS,
and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves
PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

R. R. R.
RADWAY'S READY RELIEF,
Is the first and only remedy ever recorded in the Medical History of the World that has stopped the most violent pains in a few seconds,
IT WILL STOP
THE MOST SEVERE PAINS
IN A FEW MINUTES, AND CURE THE MOST OBSTINATE AND TORMENTING RHEUMATIC, NEURALGIC AND NERVOUS COMPLAINTS
IN A FEW HOURS,
INTERNAL AND EXTERNAL.
IT WILL STOP
THE MOST EXCRUCIATING PAINS,
IN FROM THREE TO FIVE MINUTES!
AND HAS CURED

Rheumatism	In Four Hours.
Neuralgia	In One Hour.
Croup	In Ten Minutes.
Diarrhoea	In Fifteen Minutes.
Toothache	In One Second.
Spasm	In Five Minutes.
Cramps	In Five Minutes.
Sick Head Ache	In Fifteen Minutes.
Chill Fever	In Fifteen Minutes.
Chilblains	In Five Minutes.
Sore Throat	In Four Hours
Influenza	In One Hour.

SPINAL COMPLAINTS, STIFF JOINTS, STRAINS, BRUISES, CUTS, WOUNDS, FROST BITES, CHOLERA MORBUS, DYSENTERY, TIC DOLOREUX, and all other complaints where there is severe pains, RADWAY'S READY RELIEF will instantly stop pain, and quickly cure the disease.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrate the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents, and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system.—Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF
In a few seconds
WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.
PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belladonna Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, *but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.*

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF
IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhoea,
Bloody Flux,
Dysentery,
Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.
RHEUMATISM.
PAINS RELIEVED IN FIVE MINUTES.

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.
CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS.

Whenever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidney's, Bowels, Joints, Bones, Radway's Ready Relief taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

BEAUTY.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—
Soft and sweet as the fragrant rose—
Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin diseases.

TO THE COMPLEXION IT IMPARTS BEAUTY.

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it stong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

Radway's Circassian Balm is the "ne plus ultra."

[From the Boston Bee.]

The Editor said, Dec. 3d: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

SCOTT'S WEEKLY.

One of the best literary papers published, said, August 25
"DR. HOOFLAND'S GERMAN BITTERS, manufactured by Dr Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article, fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says:—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 24, says:—"A Medicine"—We speak knowingly of Dr. Hofland's celebrated German Bitters, when we say it is a blessing of this age, and, in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures, and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all billious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.
